ePortfolio Dos

- Explore student example ePortfolios for ideas and inspiration.

- Start your ePortfolio early and return to it often.

- Use SLCC's ePortfolio resources.

- Be creative! Make your ePortfolio speak to your passions, personality, and the story of your learning.

- Block your ePortfolio from search engines.

ePortfolio Don'ts

- Procrastinate on building and returning to your ePortfolio--you'll forget how to use its features.

- File dump. File dumping won't engage your audience.

- Use stock images. Use relevant original images.

- Put unnecessary info in your ePortfolio. Addresses, SSNs, phone numbers, and S numbers = unnecessary info.

- Hesitate to ask for help when you need it.
